Snagit Prints Screens of Information Quickly and Easily Capture a computer screenshot, a Web page or a partial spreadsheet quickly and easily with the Snagit Twin Pack for Windows, Windows 95 and Windows NT. Previously, capturing the entire contents of a computer screen was a complex task. Snagit does the job with a few clicks of the mouse. It even "stretches" to show all of its contents. Snagit costs \$39.95 for a single-user license. A 10-user license costs \$200.

This Windows-based software runs on either a standalone personal computer or a network, requires five megabytes of disk space and comes with installation diskettes. WIN-SENSE costs \$1,495; the annual maintenance cost is \$300. Tariff cost updates, based on  AT&T and local carrier rates, also can be purchased quarterly for \$125 per update.

lot It! 2.2 leaves electronic messages of any size.

If you're one of those people addicted to Post-Its, you'll be happy to know of two software products that let you use electronic counterparts. Jot-It! 2.2 and Note It! allow users to attach electronic notes to any file on their PCs. Both software packages let users attach notes to any Web site and be able to retrieve that site from the electronically posted note. Both products also give users the option to annotate documents with recorded voice messages.

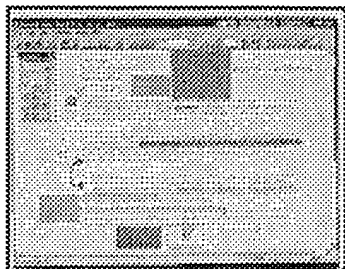

Note It!-which features tools to annotate and highlight documents without altering the original-includes a simulated highlighter and a drawing tool to electronically recreate proofreader marks and an electronic pen for freehand writing; it retails for \$99. Jot-It!-which costs \$29.95-does not include these additional features.
